"WHEREAS, it is the fixed opinion of this Board that any commercial development of the aforesaid location would tend to deprive the people of San Francisco of the healthgiving recreational features afforded them at Marina Park, and prevent any possible future extension of this recreational area adjacent to a populous and rapidly growing residential section of San Francisco;
"NOW, THEREFORE, BE IT RESOLVED, that this Board respectfully urges the Board of Supervisors to take such immediate action as will prevent this area being used for commercial purposes and then to take all necessary steps to acquire this property for park purposes."

Sharp Park Golf Course Hunter appointed: The following letter from Mr. Robert Hunter, Jr. was read to the Board:

"Mr. Herbert Fleishhacker, Pres. April 28,1930.
San Francisco Parks Commission,
San Francisco, California.

"Dear Mr. Fleishhacker:

"Following along the lines of our recent conversation in regard to the construction of the Sharps Park Golf Course for the City of San Francisco, I will be very glad indeed to take charge of the supervision and construction of this work on the monthly salary of Seven Hundred Fifty Dollars ($750.00) for a period of ten months. If this work is started at once, following my suffestions as to method and manner of procedure and proper sequence of the construction problems involved, I am sure that the course can be completed in this period of time. However, if this should not be possible after the initial period of ten months, I will continue to supervise the remaining work free of cost to the City.

"My only hesitation in estimating the cost of construction of this work at One Hundred Thousand Dollars ($100,000.00) is that I have based these figures on past performances where we have had the sole charge of the work in hand. Therefore I would like to have clearly established before this work is started just what my position is and to what extent I can expect cooperation from the Park Department. I am sure that if we can settle this at the present time no future dissensions will arise as to the manner in which this work is to be conducted.

"Thank you very much for this opportunity to serve you and I am sure with the full cooperation of everyone involved that we will save the city a great deal of the time and expense that has formerly been expended on the construction of its Municipal courses.

Very sincerely yours,

(Signed) Robert Hunter, Jr."

It was the unanimous opinion of the Board that Mr. Robert Hunter, Jr. be appointed as Superintendent of Construction of the Sharp Park Golf Course at a salary of $750.00 per month for ten months, with the understanding, however, that if the course is not completed at the termination of the initial ten months period, Mr. Hunter will continue to supervise the remaining work to completion without further cost to the Park Commissioners.

Tree plantings, sidewalks-Lafayette Square:

The following opinion of the City Attorney, regarding tree planting, was next read to the Board:

May 29, 1930.

"Honorable Board of Park Commissioners,
Park Lodge, San Francisco, California.

"Gentlemen:

"I am in receipt of a communication from the secretary of your board in which he asks that I advise the Commission as to what department has the right to order the planting of trees in front of park property.

"The charter is silent on the subject and we have no ordinance which governs the matter and we are, therefore, relegated to the state law on the subject.

"The latest expression of the legislature on the matter is found in the Act of June 7, 1915, Statutes 1915, page 1256. Under this act the legislative department of any municipality, upon report of the City Engineer, may initiate proceedings for the planting of trees along streets of the city, but no order can be made without notice being posted along the line of the property and the property owners given the opportunity to protest against the planting of the trees or shrubs. If a majority of the property owners protest against the tree planting, the Board of Supervisors has not the power to order the work done, but if a majority does not protest the Board may order the trees to be planted and make the cost of the planting and the maintenance of them for a period of five years a charge against the property in front of which the same are planted.

"Nearly all the parks in San Francisco and especially those throughout the Western Addition do not extend beyond the innermost sidewalk line, for the reason that these parks were set apart under the Van Ness Ordinance and are distinctly indicated upon the map as being inside the street lines.

"It is very doubtful if property owned by the public could be made liable for any assessment for tree planting, but even if we should admit that the Board of Supervisors might direct that the cost of planting trees should be defrayed by funds from other sources, I believe that there is very little danger of any legislative body in the City ordering trees planted in front of any park over the protest of the Park authorities, for the reason that it would have to be admitted that the Park authorities have full control over the park itself and the planting of trees might, to a very considerable extent, interfere with the plans which the Park Commissioners or authorities had in view for the beautification of the particular park.

"I believe, therefore, that there is very little danger of the planting of trees in front of Lafayette Square establishing any precedent which would in the future embarrass your Commission or compel it to plant trees in front of parks where it did not desire to do so.

"While the Board of Public Works may have had no authority without an order from the Board of Supervisors to prepare for the planting of trees in front of the square, and while there certainly is no obligation upon your commission to see that trees are planted in the holes prepared for them, you could, if you desired, plant these trees and your so doing would be an act of courtesy to the Board and not one which you could be compelled to perform".

Yours sincerely,

(Signed) Jno J.O'Toole
City Attorney."

It was the unanimous opinion of the Board that Supt. John McLaren be authorized to plant thirty-seven trees in the sidewalk area on the northerly side of Lafayette Square.

San Francisco, Calif.

"Dear Sirs:
Owing to the fact that there have been a considerable number of cases of poliomylitis (infantile paralysis) reported in San Francisco during July, with an increase in August, and still greater increase during the current month, it has been considered advisable to limit the use of all swimming pools to those individuals over eighteen years of age. You are hereby notified, therefore, to prohibit individuals under the age of 18 years from entering your pool until further notice.

"This order is issued for two reasons:
(1) To prevent unnecessary congregation of those individuals most susceptible i.e. children and young adolescents.
(2) To protect the individual's own resistance by preserving the normal nasal secretions which might be washed out by swimming.

"Your cooperation is expected and will be appreciated.

By order of the Health Officer.

Very truly yours,

(Signed) Jacques P. Gray,

Discussion re New Sunset Police Station

The subject of discussion was the creation of the new Sunset Police Station.

Representatives of the various improvement clubs of the Sunset and Park-Presidio districts were present.

Address by Mr.Theodore Roche:

Theodore Roche, President of the Police Commission, spoke briefly on the advantages that would accrue to both the residents of the Sunset District and frequenters of Golden Gate Park by the creation of a new police district with headquarters in Golden Gate Park.

Captain J.J. O'Meara, in charge of the present Park Police Station, being present, Mr. Theodore Roche requested him to explain his plan for the creation of this new police district to the assembled representatives of the various improvement clubs.

Captain O'Meara's Plan:

Captain O'Meara's plan was substantially as follows:

That a new Police District would be formed to include Golden Gate Park, Lincoln Park, Great Highway, Fleishhacker Pool and Harding Golf Links; a new Station, for which an appropriation has been made by the Board of Supervisors, to be built in Golden Gate Park and to be the headquarters of the new district.

The original Park District to remain the same as at present, except that Golden Gate Park will be detached and made a part of the new district, to be organized when the station in the Park is built. Also that portion of Golden Gate Park south of the new road from Stanyan Street to Third Avenue and Lincoln Way, in which the Kezar Stadium is located, to remain in the original Park district.

This new plan of reorganization of districts and creation of the new Park district, would necessitate the transfer of approximately forty-three men from the old Park District, Richmond and Taraval Districts to the new Park District when it is created.

Site near Old Stadium approved:

It was the unanimous opinion of the Board of Park Commissioners that the erection of a new Park Police Station in Golden Gate Park in the vicinity of the Old Stadium be authorized, in order that the aforesaid plan, heretofore approved by the Police Commissioners, could be carried out.

Meeting Adjourned:

There being no objections from the representative citizens present and no further business before the Board, the meeting adjourned sine die at 9:00 P.M.
